Grüezi, Bonjour, Ciao, Allegra, Hello

Welcome to Switzerland

This application provides a wealth of information on daily life in Switzerland, covering everything from education and work to healthcare and politics. It also contains links to further information allowing you to consolidate what you have learnt. Integration is a long-term endeavour, and we hope the app will prove useful to you throughout this new chapter in your life.

The app features a general section as well as a section specifically for people who went through the asylum process on arrival in Switzerland.
